- NSF FY-2011 SBIR Phase I Solicitation Released

The National Science Foundation (NSF) posted their FY-2011 SBIR Phase I Solicitation on their SBIR/STTR website ([www.nsf.gov/eng/iip/sbir/](http://www.nsf.gov/eng/iip/sbir/)) on March 2, 2010. The solicitation is available in html, pdf, and txt file formats. NSF expects to make approximately 200 to 300 fixed amount awards in amounts of up to \$150,000. Anticipated funding amount for this solicitation is \$45,000,000 (pending the availability of funds and quality of proposals). Proposals will be due June 9, 2010, however, NSF will not begin accepting proposals until May 9, 2010.

As indicated in the solicitation:

“The SBIR program solicits proposals from the small business sector consistent with NSF's mission. The program is governed by Public Law 106-554. A main purpose of the legislation is to stimulate technological innovation and increase private sector commercialization. The NSF SBIR program is therefore in a unique position to meet both the goals of NSF and the purpose of the SBIR legislation by transforming scientific discovery into both social and economic benefit, and by emphasizing private sector commercialization. Accordingly, NSF has formulated a broad solicitation topic for SBIR that conforms to the high-technology investment sector's interests.”

The four broad topics are:

Biotech and Chemical Technologies (BC)  
Education Applications (EA)  
Information and Communication Technologies (IC)  
Nanotechnology, Advanced Materials, and Manufacturing (NM)
