June 26, 2000
Beijing, *St. Regis Hotel*

June 29, 2000
Shanghai, *Grand Hyatt Hotel*

Hosted by:

California Energy Commission
United States Department of Energy
China Energy Conservation Association, Beijing
Shanghai Energy Commission, Shanghai

Come to either Beijing or Shanghai in June and get involved in this important forum on improving China's energy and environmental future!

The California Energy Commission and United States Department of Energy invite you to attend a one-day conference on the latest energy efficiency and cogeneration technologies and energy management methods. American energy technology installed in factories and buildings frequently results in substantial energy savings, reduced operating costs, and improved profits.

Why you should attend:

- Learn how to make your facilities cleaner and cheaper to operate by using energy efficient lighting, motors, heating and air conditioning, thermal storage applications, controls, and numerous types of steam and power systems.
- Meet U.S. energy equipment suppliers, project developers and financiers.
- Meet Chinese industrial and commercial facility owners and government energy policy-makers.
- Hear key energy leaders speak about how the latest energy efficiency and cogeneration technologies and techniques can improve China's energy and environmental future.
- Learn about the successes of the Pudong Airport Cogeneration Project, the Yiyang Sunshine Power Plant, and the Beijing Blue Sky Clean Energy Cogeneration Power Project.
- Explore the growing strategic role of natural gas as a cost-competitive generation source in China.

- **Financing China's Energy Needs:** Year 2000 Policy and the Role of Energy Efficiency and Private Power Development
- **Improving Commercial and Industrial Energy Use Through Efficient Technologies**
- **China's Energy Sector:** Overview and Opportunities
- **Cogeneration:** Combined Heat and Power Opportunities
- **Transforming the Marketplace:** Creating an Energy Efficient Marketplace in China

Speakers include representatives from:

California Energy Commission
 U.S. Department of Energy
 U.S. Department of Commerce

China Energy Conservation Association
(at the Beijing conference)
 Shanghai Energy Commission
(at the Shanghai conference)

State Development Planning Commission
 Solar Turbines, Inc.
 Baldor Electric Company
 Baltimore Aircoil Company
 Caterpillar, Inc.
 Falcon Group
 SP Power Economic Research Center
 TEAM China/USA, Inc.
