*Establish relationships with Chinese industrial leaders*

**More than 25 top Chinese power generation, mining, and oil & gas executives discuss their industries' plans**

# Ready to be a player in the world's fastest growing energy market?

*The excitement over potential opportunities for U.S. companies in Chinese energy development has been building for several years. This conference gives you the substance behind the excitement with a comprehensive overview of current activities and future plans, as well as the opportunity to position your company to be part of the action.*

## SCOPE

We are pleased to invite you to participate in an important forum that will help shape the future of energy development in Asia. The Sino-US Energy Development Conference will be held in Washington DC, January 19-21. The event is designed to bring together industry leaders for an interactive discussion on energy developments currently being planned throughout China. At the conference, you will have the opportunity to initiate relationships with Chinese decision makers, to learn their plans for the 21st century, and to discuss project and partnering opportunities. Additionally, speakers from US-based companies will discuss Power Sector Restructuring, Clean Coal Technology, Oil and Gas Production/Transmission, Demand Side Energy Efficiency, and Energy Financing.

Conference will provide a comprehensive overview of energy development plans for China featuring oil and gas, including ocean extraction and transmission, coal, including coal bed methane development plans, thermal- and hydro-generation projects and general topics such as energy efficiency and conservation. A projects list will be mailed to you with registration materials and will be available on the conference web site.

## TARGET AUDIENCE

Sponsors suggest those most likely to benefit from this conference are senior power industry management and decision makers in the areas of policy, strategic planning, business development and project management.

**Park Hyatt, Washington, D.C., (202) 789-1234**
