📠 To access the Site paging service (to call an "85" pager number from a non-DOE phone), dial either 373-7243, or 376-4190. When the recording invites you to enter the paging number, enter just the last four digits of the pager number listed above (7 digit pager numbers can be dialed directly).

📍 Procedure: first try to contact the primary FR (Carlson or Higgins). If Carlson is not available, contact Higgins (and vice versa). If neither is available, then contact the On-Call FR or Backup Officer (in that order). If none of these answers your call, contact Roger Christensen at 372-4900. Be sure to tell the alternate that you were unable to get in touch with either of our Primary FRs. **Personal contact must be made** with a FR or one of the alternates (phone messages and e-mails do not meet this requirement).
