

## Fuel Cell Summit V Photos

Summit Attendees Tour the BCHP Test Site at University of Maryland.

Dave Holmes (foreground) and Gene Connelly (in red shirt, background) of Avista Labs describe the Avista 3 kW fuel cell (left) to Summit attendees during the barbecue dinner.

Bill Parks of the Office of Power Technologies, U.S. DOE, provides the guest luncheon speech on the first day of the Summit.

Bob Rose of the U.S. Fuel Cell Council gives his presentation of the commercialization status of various fuel cell technologies.

Tim Hillman, PNNL, presents results of the Tri-Cities Code Officials Study.

The Expert Panel members respond to questions regarding remaining codes and standards issues for fuel cells. From left to right: Guy Tomberlin, County of Fairfax; Harry Jones, Underwriters Laboratories; Todd Strothers, CSA; Tony Androsky, SAE; Tim Bernadowski, Dominion Virginia Power; Chris Fennell, NAHB Research Center; and Alan Mace, Idatech.

Ron Fiskum of the U.S. Department of Energy and J. Michael Davis, CEO Avista Labs, talk during the morning break.

Ron Jarnagin, PNNL, keeps the meeting on track in his role as facilitator/emcee.
