

OREGON STATE UNIVERSITY

PEOPLE. IDEAS. INNOVATION.

- Located approximately an hour south of Portland, OSU is home to the 23rd largest undergraduate engineering program in the U.S.
- OSU's collaborative research approach assembles dynamic research teams that span departments and disciplines to solve real-world challenges.
- As OSU builds one of the nation's top-25 engineering schools, it is attracting outstanding faculty and students--people driven to teach, learn, and innovate to build a better tomorrow.
- OSU Engineering works closely with a growing list of industry partners who are coming to OSU for cost-effective research results.
