

Biome Project

Name _____

My Biome _____

You are to build a three-dimensional model of your biome using everyday materials. Included in the model should be representative examples of flora, fauna, and it should show the terrain (mountainous, flat, shoreline, etc.). The inside walls of the box should be decorated (painted, collaged with photos, etc.). Attached to the back of the box should be a poster with a written description of all of the characteristics of the biome:

Elevation

Precipitation levels

Flora

Fauna

Seasons

Soil

Insects

Adaptations

Weather/Climate

Human activity and its effect on the Biome

Problems faced by your biome

Things we can do to help

World map indicating (by color, outline, etc.) the location of your biome.

A bibliography should be attached to the right end of the biome box.

ASSIGNMENT DUE:
