

**Program Element IV: Hazard Prevention and Control**

**6. Radiation Protection Program**

*Required Information:*

Summarize and briefly describe (2-3 pages) the procedures used for protecting employees from radiological hazards.

*Additional Guidance:*

Some ALARA performance indicators may be useful, particularly collective dose, maximum individual dose, and number of contamination incidents for each of the previous three years.

Do not attach Tiger Team Assessments, Technical Safety Appraisals, Corrective Action Plans, Radiological Control Manual Implementation Plans, or Radiological Protection Program Plans.

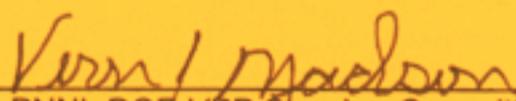

Checklists should not be submitted as demonstration of program evaluation.

Applicant agrees that the required information is included and is correct to the best of their knowledge.
