

Process Science & Engineering

We conduct basic to applied science and engineering to deliver integrated technical **solutions** to solve our clients' nationally significant problems.

Lab-Intensive Research

- Applied Process Engineering Lab
- Radiochemical Processing Lab
- Environmental Molecular Sciences Lab

Award-Winning R&D

- 18 R&D 100 awards
- 13 FLC awards
- 1300 publications

Research for Many DOE, Federal, and Industrial Clients

- 270 research projects
- \$38M business volume

Staff Facts

- 200 staff including 162 scientists and engineers
- 119 patents since 1995
