Linda Sandahl  
Program Manager  
Pacific Northwest National Laboratory  
620 SW Fifth Avenue, Suite 815  
Portland, Oregon 97204

Dear Linda:

On behalf of the Defense Supply Center Philadelphia, Lighting Team, I am pleased to offer this letter of support for the CFL Reflector Products Technology Procurement that is being organized by Pacific Northwest National Laboratory on behalf of the U.S. Department of Energy and the Northwest Energy Efficiency Alliance. We understand that the program's purpose is to encourage the introduction and sales of new, CFL reflector products designed specifically for application in residential Insulated Ceiling (IC) rated, airtight recessed can fixtures, and to help build their initial sales.

The Lighting Team of the Defense Supply Center Philadelphia (DSCP) is the "Provider of Choice" for all lighting needs in the Federal sector. We offer a wide variety of commercial Energy Efficient lighting (lamps, bulbs, ballast and fixtures) and provide weapon system lighting products for all of our DOD customers.

Please keep us informed of the program progress as it moves forward.

Sincerely,

*Jim Ogorek*
