Linda Sandhal  
Program Manager  
Pacific Northwest National Laboratory  
620 SW Fifth Avenue, Suite 815  
Portland, Oregon 97204

Dear Linda:

The Midwest Energy Efficiency Alliance is pleased to offer this letter of support for the CFL Reflector Products Technology Procurement that is being organized by Pacific Northwest National Laboratory on behalf of the U.S. Department of Energy. We understand that the program's purpose is to encourage the introduction and sales of new, CFL reflector products designed specifically for application in residential Insulated Ceiling (IC) rated, airtight recessed can fixtures, and to help build their initial sales.

As a regional market transformation program, MEEA has administered regional ENERGY STAR qualified lighting promotions throughout the Midwest since 2001.

Please keep us informed of the progress of the soliciting as it moves forward.

Sincerely,

Alecia Ward  
Executive Director
