

NORTHWEST ENERGY EFFICIENCY ALLIANCE

May 6, 2002

Linda Sandahl
Program Manager
Pacific Northwest National Laboratory
620 SW Fifth Avenue, Suite 815
Portland, Oregon 97204

Dear Linda:

The Northwest Energy Efficiency Alliance (the Alliance) is pleased to offer this letter of support for the **CFL Reflector Products Technology Procurement** that is being organized by Pacific Northwest National Laboratory on behalf of the U.S. Department of Energy and the Alliance. We understand that the program's purpose is to encourage the introduction and sales of new, CFL reflector products designed specifically for application in residential Insulated Ceiling (IC) rated, airtight recessed can fixtures, and to help build their initial sales.

The Alliance is a non-profit group of electric utilities, state governments, public interest groups and industry representatives committed to bringing affordable, energy-efficient products and services to the marketplace. Since the Alliance's current ENERGY STAR Residential Lighting Program is focused on promoting all ENERGY STAR qualified lighting products, we anticipate that once winners are selected, we would be interested in evaluating the new CFL reflector products to be added to the selection of products promoted through our program.

Please keep us informed of the progress of the solicitation as it moves forward.

Sincerely,

Marci Sanders
Project Coordinator
Northwest Energy Efficiency Alliance
