

# DISCOVERY HALL

Advancing  
science through  
collaboration

## **Food service**

**80-inch portable displays**

**Podiums with digital displays**

**Audio / visual support**

**Plug-and-play technology  
with Skype connectivity**

**Portable magnetic poster boards**

**Flexible large main hall with  
multiple room configurations**

**Two 1,500-square-foot  
conference rooms**

**Two 6-person huddle rooms**

New in 2018, the Pacific Northwest National Laboratory's Discovery Hall is a collaboration-rich environment where our researchers gather with academic and industrial partners.

It is a modern venue to generate new ideas and solve complex problems in the areas of scientific discovery, energy resiliency, and national security.

Discovery Hall  
650 Horn Rapids Road  
Richland, WA 99354

**Pacific Northwest**  
NATIONAL LABORATORY

Discovery Hall accommodates large groups, 450+ people, or small informal gatherings. The flexible main hall can be divided from one large area into as many as five separate rooms. The lobby serves as a gathering place for poster sessions, vendor booths, receptions, and more. The building is strategically located within walking distance to our world-class research facilities.

**Discovery Hall elevates scientific engagement by enabling researchers to convene large scientific meetings and other mission-driven events.**
