The Environmental Protection Agency (EPA) contemplates awarding approximately twenty five to thirty (25-30) firm-fixed price contracts under the Small Business Innovative Research (SBIR) Program Phase I, during Fiscal Year 2012. The SBIR Program is a phased process, uniform throughout the Federal Government, of soliciting proposals and awarding contracts for research or research and development (R&D) to meet stated agency needs or missions.

During Phase I (covered by this solicitation) contractors shall conduct feasibility-related experimental research or R&D efforts on the following agency topics:

- A) Green Building

Proposals submitted in response to the solicitation must directly pertain to the EPA's environmental mission and must be responsive to EPA program interest included in the topic descriptions identified in the solicitation. This procurement is a total small business set-aside. The NAICS code is 541712 and the Small Business Size Standard is 500 employees. The anticipated release date of the solicitation is March 15, 2011, with an expected due date of May 3, 2011. -- Spring Regional SBIR Event Announcements

Hard to believe with much of the country covered in snow and in a deep freeze, but spring is just around the corner! Now is a great time to start making plans to attend a SBIR conference or workshop. Several spring events in locations all over the country have recently been added to the 'CONFERENCES AND WORKSHOPS' section of this newsletter. These workshops provide an opportunity to improve proposal preparation skills and often offer a chance for one-on-one discussions with Agency representatives. If you would like to include a workshop announcement in this listing, please email richard.fowler@pnl.gov.
